## MEMO

**TO:** Weeneebayko Region

---

**FROM:** WAHA Pandemic Task Force

---

**DATE:** August 20, 2021

---

**RE:** Ontario Receipting for Vaccines Administered in the Weeneebayko Region

In Ontario, COVID-19 vaccination data has been entered into a secure provincial portal sometimes called 'COVAX<sub>ON</sub>', or the **Ontario COVID-19 Vaccination Service**. Data may be entered into this system for vaccines administered in municipalities, at hospitals and places of employment, in First Nations communities where the First Nation has given approval for their data to be entered into this service.

### Check for your Ontario vaccine receipt online

To check for your Ontario proof of vaccination/vaccination receipt, visit the [Ontario COVID-19 Vaccination Service website](https://covid19.ontariohealth.ca/): <https://covid19.ontariohealth.ca/>. You will need your health card number.

### I can't find my receipt online; why?

There are many reasons someone may not be able to find their receipt yet; these include:

- Data entry is still ongoing for our Region in collaboration with regional and community partners
- The patient didn't bring their health card to the vaccine clinic, and so it was not entered when their vaccine was recorded (health card number is required to find an online receipt)
- The patient received their vaccine in a community clinic where the First Nation has not yet provided approval for vaccine information to be entered into COVAX<sub>ON</sub>/the COVID-19 Vaccination Service
- The paper data-entry form was unclear, resulting in omission or misspelling of the health card number or other demographical information.

### What to do if you cannot find your receipt online

If your need for a receipt is not urgent, please continue to check the Ontario COVID-19 Vaccination Service website every 1-2 weeks over the next 2 months. Data entry and data reconciliation is ongoing in our region.

### If you need your record urgently

"Urgent" means you need a receipt within the next 2 weeks for the purposes of travel, employment, or another serious requirement. If this is the case, please complete our online [WAHA COVID-19 Vaccine Receipt Support survey](#) to request help.
